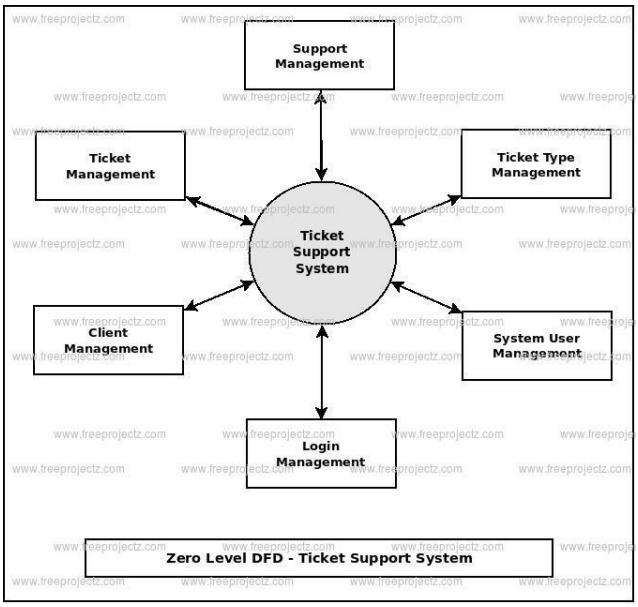
Project Name	Streamlining Ticket Assignment for Efficient Support Operations
Maximum Marks	2 Marks

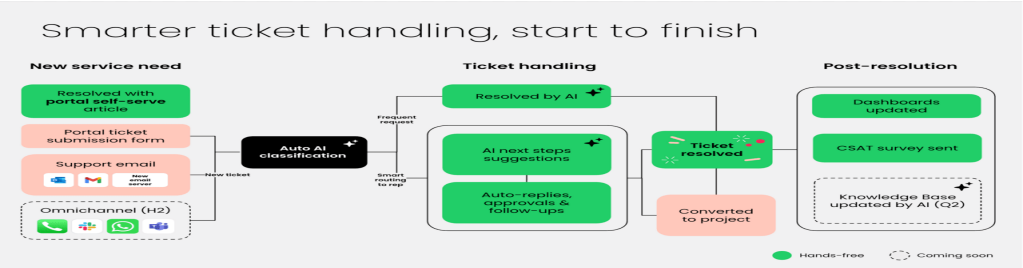
Customer Problem Statement:

Create a problem statement to understand the challenges faced in support ticket management. This template helps focus on improving ticket assignment efficiency and delivering better support experiences.

A well-defined problem statement allows the team to identify gaps in the current ticket assignment process and develop an effective automated solution. It also helps in understanding both support agents' and customers' perspective



Example:



Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1					
PS-2
