Steps	Positive moments	Negative moments	Areas of opportunity	Goals & motivations
New Ticket Received		• Initial triage can be overwhelmning with too many new tickets.	• Filter out easier issues first or let reps see what others are doing with a system	"Help me understand and peiorifize what's coming in."
		• Automated sorting saves time.	• Could we factor in additional metadate when determining ticket type?	"Help me avoid westing time sorting through new tickets."
Ticket Categorized		• Getting tickets that match my skills feels rewarding 😄	• Could we reassign any tickets that don't match skill.sets?	"Help me avoid working on tickets outside my expertise."
		• Focusing on tickets appropriate to their expertise.	• We could identify common blockers and prepare useful stols?	"Help me fix the ticket that's been assigned to me."
		• Resolving tickets and satisfying customers feels rewarding.	• Could we develop a quick rating system and text other surveys?	"Help me make more customers happy."
		• Hearing appreciation from customers.	• Low response rates to follow-up surveys?	
Ticket Assigned		• Improving the system to make work easier and more efficient.	• Lack of feedback and slow improvement in processe ovt ime?	"Help me make my work more effective."
Ticket Resolved		• Hearing appreciation from customers.	• How could we test improvements with team trials or	"Help me make my work more effective."
		• Improving the system to make work easier and more efficient.	• How could we test improvements with team trials or simulations?	"Help me make my work more effective."
